Introduction to the support project by Tokyo Metropolitan Government

TMAN

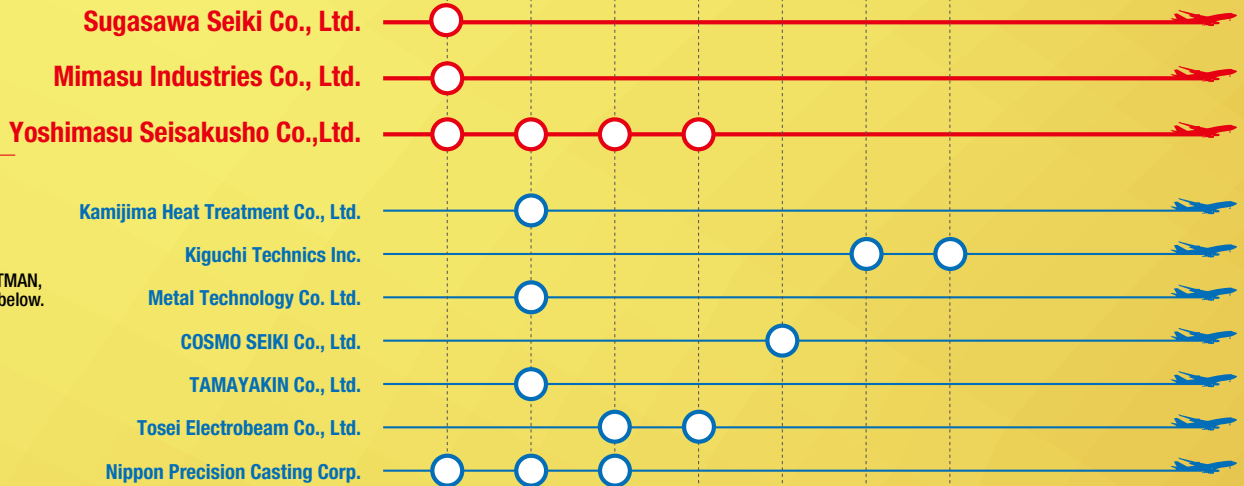

An aircraft industry cluster composed of 64 companies
Taking Tokyo's high-tech manufacturing to the skies of the world

Features Of TMAN

- Nadcap accredited companies provide customers with various special processes.
- Through cooperation among the companies in the cluster, we can handle multi-step orders.

10 companies of TMAN have 17 Nadcap certifications covering seven areas.

For detail information on TMAN,
please scan the QR code below.

Tokyo Metropolitan Industrial Technology Research Institute is a public partner supporting TMAN's technology and quality.
A new aircraft industry support office has opened. It has an improved and wide-ranging support system.

- The institute's researchers familiar with special fields enrolled in TIRI offer research-and-development support.
- Providing the performance test by an ASTM-conformance testing machine is just one of the many options offered on the support menu.

Enjoy Tokyo Sake Party

Date: Thursday, November 29, 14:00-15:00

Location: Tokyo Big Sight, East 7 Hall, TMAN booth

Thanks to the Tokyo Sake Brewers' Association, the TMAN booth will serve famous brands of sake representing sake specialty shops in Tokyo. After the ceremonial breaking of the sake cask, together with representatives of TMAN exhibitors, please enjoy some seasonal gems from the sake world.
